	Poor	Fair	Average	Good	Excellent
Educational quality of the activity	1	2	3	4	5
Facilitator effectiveness	1	2	3	4	5
Activity compatibility with classroom science curriculum	1	2	3	4	5

In order to provide schools and groups with quality programs at affordable rates, McDonald Observatory Visitor Center seeks funding from a variety of outside sources. These sources require us to keep records showing we are reaching a wide audience, which reflects the cultural and ethnic diversity of Texas. Please help us fulfill this requirement by providing answers to the following questions.

How many of your students are:

Caucasian	Hispanic	African American	Asian	Native American	Disadvantaged	Male	Female

Please add any suggestions or comments on the bottom of this survey. Your input will help us serve you better in the future. Thank you!
